ANNUAL REPORT

of the

MEDICAL OFFICER OF HEALTH

for the

YEAR ENDING

31st. DECEMBER 1962

MELTON AND BELVOIR RURAL DISTRICT COUNCIL

A N N U A L R E P O R T

of the

MEDICAL OFFICER OF HEALTH

1962

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present herewith my twentyfourth Annual Report dealing with matters within my responsibility regarding Public Health and preventive medicine:-

GENERAL STATISTICS

Area (in acres).....	113,025
Registrar General's estimate of population.....	18,660
Number of inhabited houses.....	5,991
Rateable value.....	£ 200,413
Estimated sum represented by a penny rate.....	£ 787.0.0d.

VITAL STATISTICS

	<u>Males</u>	<u>Females</u>	<u>Total</u>
Births - Legitimate	173	138	311
Illegitimate	9	7	16
	—	—	—
	182	145	327
	==	==	==
Still Births - Legitimate	3	2	5
Illegitimate	1	—	1
	—	—	—
	4	2	6
	==	==	==

	<u>Rate for</u> <u>District</u>	<u>Rate for</u> <u>England & Wales</u>
Birth Rate.....	18.5	18.0
Death Rate.....	10.0	11.9
Infant Mortality Rate per 1,000 live births.....	6.1	20.7

It is very satisfactory to record that there were only two deaths of infants under one year of age.

PUBLIC HEALTH OFFICERS OF THE AUTHORITY

J. Young. M.B. Ch.B. D.P.H. (Camb)

Medical Officer of Health for the Leicestershire and Rutland Combined Districts in which this District is included.

J.P. Milburn. M.R.S.H. M.A.P.H.I.

Chief Public Health Inspector.
(Cert. of R.S.I. and S.I. Joint Examination Board).

G. Bower. M.A.P.H.I., M.R.S.H.

Deputy Chief Public Health Inspector.
(Cert. of R.S.I. and S.I. Joint Examination Board).
(Cert. R.S.I. for Inspector of Meat & Other Foods).

M. Jones. M.A.P.H.I.

Additional Public Health Inspector.
Resigned 28th February, 1962.

H. Knighton. M.A.P.H.I., M.R.S.H.

Additional Public Health Inspector.
(Cert. of R.S.I. and S.I. Joint Examination Board).
(Cert. R.S.I. for Inspector of Meat & Other Foods).
Commenced Duties on 1st April, 1962.

LABORATORY FACILITIES

The following examinations have been carried out at the Public Health Laboratory, Leicester:-

Nose and Throat Swabs.....	21
Faeces & Urines.....	31
Sputa.....	20

	Unsatisfactory.....	1

From piped supply	- Satisfactory.....	28
	Unsatisfactory.....	Nil

Number of wells:-

(a)	closed.....	1
(b)	cleansed.....	Nil

Number of cases in which piped supply was substituted for well water..... 26

Number of Parishes without a piped water supply..... Nil

Number of houses now on piped supply.....5751

Number of Parishes and part Parishes with piped water supply:-

(a)	from public mains - 23 parishes and 2 part.
(b)	from private reservoirs..... 2 part.

Existing Water Supplies

There is a public piped water supply to every Parish, and the only villages not served are Stapleford, Cold Overton and Buckminster. These villages have a private piped supply. Schemes were prepared during the year to serve Stapleford and Cold Overton, and the Council agreed to enter into a guarantee, in accordance with Section 36 of the Water Act, 1945, with the Leicester Corporation Water Department to guarantee a revenue of $\frac{1}{8}$ of the cost for 12 years as the estimated revenue was less than this required amount.

Consideration was also given to a supply to serve Buckminster from the Leicester Corporation's supply, but in view of the high capital costs it was thought that if a supply could be obtained from the Kesteven Area the cost would be considerably less. The Kesteven Water Authority appear to be willing to afford a supply of water to Buckminster, but there will be a long delay. Negotiations are being carried out with the Leicester Corporation to endeavour to obtain a "temporary scheme from their supply until a permanent scheme from Kesteven is implemented.

The greater part of the District is now supplied with water from the River Dove.

Stand pipes are not provided, the services being laid to consumer's premises.

There is no indication of any tendency to Plumbo Solvency in the piped supplies.

During the year under review there were no shortages, and hosepipes were not banned as in previous years.

DRAINAGE AND SEWERAGE

Bottesford Area

The Sewerage and Sewage Disposal Scheme to serve the village of Bottesford, Muston, Normanton and Easthorpe was completed during the year, and the Council appointed a full time Sewage Works attendant in July, 1962 to maintain the works and the four pumping stations on the scheme. Samples of the effluent have been taken at frequent intervals by the Trent River Board and the Leicester County Council, and the result of the analyses have been satisfactory as the figures for P.V., B.O.D. and Suspended Solids were within the Board's Standards. Since the scheme has been in operation the Council has cleaned out the old sewer dyke from Bowbridge Lane to the Winter Beck.

Harby & Hose

The scheme of laying sewers, construction of a Sewage Disposal works and three pumping stations was commenced in April, 1962, and although the Contract does not expire until April, 1964, the progress has been so good that it is anticipated the works will be put into operation next Summer and the Contract completed before the end of 1963.

Redmile, Barkestone & Plungar

The Consulting Engineers were rather concerned with the large amount of Farm Waste which would have to be treated on this scheme, so your Council's Officials carried out three surveys in August, 1960, April, 1961 and January, 1962 in order to ascertain the amount of both domestic and Farm Sewage which would have to be treated.

These surveys revealed that the original design for the Sewage Disposal Works was inadequate, and fresh designs were prepared. The original site was then found to be too small so a new and larger site was selected which would allow for land treatment of the effluent prior to discharge into the stream.

The revised scheme was submitted to the Ministry of Housing and Local Government and in a letter dated 19th December, 1962, they stated that one of their Inspectors would be attending at the Council Offices on the 24th January, 1963 to carry out a "Local Investigation" into the scheme.

Western Area Scheme

This scheme was originally designed to serve the villages of Asfordby, Kirby Bellars & Frisby, but during the year under review it was decided to design a scheme to serve, in addition to the three villages already mentioned, other villages in the Western Area of the District.

It is anticipated that this scheme will be carried out in phases, and the first phase will include Asfordby, Kirby Bellars and Frisby.

Surveys have been completed through the whole area of villages to be included in the scheme to ascertain the estimated amount of domestic sewage and trade waste to be treated. Field surveys are completed and it is hoped that the scheme will be submitted to the Ministry of Housing & Local Government during the coming year.

General

Schemes are proceeding in accordance with the planned programme, and progress is considered satisfactory.

Closet Accommodation

Total number in the District at the end of 1962:-

(a)	Privies.....	196
(b)	Pail Closets.....	1315
(c)	Water Closets.....	4929

Public Cleansing

Refuse is collected from all households at intervals of 7 working days.

Nightsoil is collected weekly from 52 villages and 3 part villages. In the remaining 10 villages and 3 part villages no collection is made because these have a mains water supply and an efficient Sewage Disposal Works available. When the sewerage scheme for Harby and Hose is completed, collection of nightsoil will cease in these villages.

A fleet of modern vehicles is maintained comprising:-

- 2 - S.D. 16/18 cu.yd. Refuse Collectors, with Fore and Aft Tipping Bodies.
- 2 - S.D. Combined Nightsoil and Cesspool emptiers, 800 - gall. capacity.
- 1 - S.D. Refuse Collector as a "stand by".

Household refuse is disposed of by controlled tipping and no difficulty has been experienced. The levelling is carried out by means of a blade etc., attached to a tractor. Part-time Attendants are also employed at the tips. The system has been found satisfactory.

The disposal of nightsoil is to farms, when it is ploughed into the land as manure. There is at present no difficulty in disposal, and in view of the amount of ploughed land it is not anticipated that this will create a problem for the next year or two.

The present system of conversion is by voluntary methods and has resulted in the conversion of 257 pail closets and privies to water closets during the year. The Scheme which the Council operates for the payment of a grant towards the voluntary conversion of pail closets to water closets appears to be operating very well.

The Council is continuing to empty house cesspools on request from the occupiers at a standard charge of 10/- per dwelling. Cesspools at Trade premises are emptied at a charge of 10/- per hour. There is, however, no collection of the contents of privy middens within the area.

By the end of the year 306 dwellings had been dealt with under the Housing Acts in pursuance of the Council's Five Year Slum Clearance programme which on the 1st of November, 1955, stood at 302 houses to be demolished.

In this respect the Council have pursued as vigorous a policy of Slum Clearance as possible and although we have exceeded the number estimated to be demolished in the first five years, there are still a few more unfit houses remaining to be dealt with.

Improvement of Existing Dwellings

Housing Act 1949 Housing Act 1954.
Housing (Financial Provisions) Act, 1958.
Housing and House Purchase Act, 1959.

The Council's aim is to endeavour to have every house, which has a reasonable life of 15 to 30 years or more, supplied with a bathroom, hot water, wash basin and water closet wherever possible.

To this end publicity material has been circulated throughout the district and is having a steadily increasing result in the number of enquiries regarding Improvement Grants and the number of grants approved.

The total number of Improvement Grants made by this Council under the relevant Authority are:

Discretionary 520.

Standard 199.

Provision of New Houses during the year

One-hundred and Sixty-Nine new houses were completed and occupied by the end of 1962. Seventy-Four of these were erected by the Council, Ninety-Five by private enterprise. There were 265 applicants on the Council Housing List at the end of the year and 83 new applications were received during 1962.

INSPECTION AND SUPERVISION OF FOOD

Milk Sampling

Fifty samples of milk were taken during the year, all of which passed the statutory bacteriological test.

The Milk (Special Designations) Regulations 1960

Under these regulations the licensing of Dairymen and Purveyors of Milk has been transferred to the County Councils and therefore no licences were issued by this Rural District Council.

Meat and other Foods

Private Slaughterhouses

Number in district in which slaughtering
is carried on..... 6

Number of visits..... 923

There are no knackery yards in the District

Places where food (other than Meat) are kept or prepared for sale

Number of inspections..... 202

Slaughterhouses and Meat Inspection

The task of modernising those slaughterhouses which are to continue in use, proceeded during the year and although not all works were completed by the end of the year, a great improvement was noted. One slaughterhouse ceased to be used on 31st December, 1962.

The number of cattle, sheep and pigs slaughtered in the area are shown in appendix A and B.

NATIONAL ASSISTANCE ACT 1948

Section 47. Removal to suitable premises of persons in need of care and attention.

Only one case occurred during this year. This was a single man over 70 years of age, living alone in insanitary conditions. He was persuaded to go into St. Mary's Hospital Melton Mowbray and in his temporary absence his neighbours came to his assistance and completely cleansed and redecorated his rooms.

I have the honour to be
Your obedient Servant,

JOHN YOUNG.
Medical Officer of Health.

Warwick Lodge,
Dalby Road,
Melton Mowbray.
